Sir:

I, Yonghua Song, a Chinese citizen residing (and having corresponding post office address) at 18188 Kenyon Court, Saratoga, California 95070, hereby declare that:

1. I believe that I am the original, first, and sole inventor of the subject matter which is claimed in the present reissue application identified above.
2. I have reviewed and understand the contents of the reissue application, including the claims.

3. I acknowledge my duty to disclose to the Patent Office all information known to be material to patentability as defined in 37 C.F.R. § 1.56.

4. I believe that the original above-identified U.S. patent is partially inoperative by reason of my having claimed less than I had the right to claim in that patent. Specifically, issued Claims 2-9, 23-31 and 40 contain a potential ambiguity with reference to the antecedent basis for the phrase "analog integrated circuit" recited at: Claim 2, column 10, line 38; Claim 3, column 10, line 42; Claim 4, column 11, line 4; Claim 5, column 11, line 6; Claim 6, column 11, line 20; Claim 7, column 11, line 24; Claim 8, column 11, line 27; Claim 9, column 11, line 42; Claim 23, column 14, line 1; Claim 24, column 14, line 5; Claim 25, column 14, line 33; Claim 26, column 14, line 35; Claim 27, column 14, line 45; Claim 28, column 14, line 59; Claim 29, column 14, line 63; Claim 30, column 14, line 66; Claim 31, column 15, line 9; and Claim 40, column 16, line 39. Issued Claim 3 contains a potential ambiguity with reference to the antecedent basis for the phrase "analog integrated core circuit" recited at Claim 3, column 10, line 43. Issued Claims 6, 19, 28, 37 and 42 contain a potential ambiguity with reference to the antecedent basis for the phrases "the first conductivity type" and "the second conductivity type" recited at: Claim 6, column 11, lines 22-23; Claim 19, column 13, lines 30, 32; Claim 28, column 14, lines 61-62; Claim 37, column 16, lines 20-22; and Claim 42, column 17, lines 2-4. Issued Claims 18, 20, 22, 32 and 41-44 contain a potential ambiguity with reference to the antecedent basis for the phrase "compensation circuit" recited at: Claim 18, column 13, lines 8-9; Claim 20, column 20, lines 36-37; Claim 22, column 13, line 65; claim 32, column 15, line 25; Claim 41, column 16, lines 46-47; Claim 42, column 17, line 1; Claim 43, column 17, line 5; and Claim 44,

column 17, line 10. Additionally, issued Claim 38 contains a potential ambiguity with reference to the antecedent basis for the phrase "first and second loading" recited at Claim 38, column 16, lines 25-26.

5. All errors being corrected in the present reissue application up to the time of filing this Declaration, including the errors identified above, arose without any deceptive intent on my part.

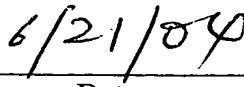

6. I hereby appoint the practitioners associated with the Customer Number provided below to prosecute the present reissue application and to transact all business in the Patent and Trademark Office connected therewith, and direct that all correspondence be addressed to the address associated with that Customer Number:
